Profile

I am a web-developer with 4 years of experience in creating web sites and applications. I like to learn new things (e.g. new ES specifications).

Experience

FRONT-END DEVELOPER, INTERACTIVE DESIGN INSTITUTE – 2017-PRESENT

I used to work with that team before. I was invited to continue developing same system and apart from it, we have started a new project with vue.js under the hood.

FRONT-END DEVELOPER, BIZTECH – 2016-2017

At BizTech I got experience with Adobe Experience Manager. I was working as a lead front-end developer on projects for Flinders and RMIT universities.

FRONT-END DEVELOPER, WEB FOUNDRY – 2015-2016

At Web Foundry I have been building web application for Interactive Design Institute. I used Angular.js for development. Also, I built an architecture for the project.

FRONT-END DEVELOPER, APOSTOL – 2015

At APOSTOL I wrote code for an internal web application built on an Angular.js and .NET. My responsibilities included writing html, css, and js.

FRONT-END DEVELOPER, WORKLE – 2014-2015

I was engaged in improving my skills in front-end development by working on this project. Web application built using Backbone.js.

FREELANCE WEB PROGRAMMER – 2012-2014

During these years, I started learning and working with web technologies that allowed me to create web applications.

I worked with cryptocurrency at Crypti as a front-end developer. I got my first experience with AngularJS here.

I have had an experience with Backbone.js, Amazon AWS and LESS on an internal company project at Tap To Eat Inc. I was building web and mobile applications for restaurants.

Education

Moscow State Forest University, Faculty of Computer Sciences (Automation and control in engineering systems) – Master's degree, 2016.

Skills

- HTML 5
- JavaScript
- CSS3
- jQuery
- Node.js
- ES2015
- Backbone.js
- MEAN stack
- Build systems
- ES2015 and higher
- Angular.js
- MongoDB
- Git
- React
